To Whom It May Concern:

We have a high school student enrolled from the Eagle Harbor Boys Ranch. The personnel at the ranch have been very responsive to any request for help or monitoring with our enrolled student. They clearly serve a need in the community.

Our graduating seniors must complete a community service requirement and they often meet their hours by volunteering at Eagle Harbor. Again, the staff has been most helpful and our students have learned a great deal about community service.

I would encourage the community to support the Eagle Harbor Boys Ranch in any way possible. Should you have further questions, please contact me.

Sincerely,

Darlene W. Anderson, Ed.D.
